

Imagine what it would be like if patients arrived seeking vision therapy, knowing what it costs, time requirements and with money and insurance issues handled. In this course you'll have a breakthrough in your ability to generate eager therapy patients from your community and from your existing practice.

For 30 years, Thomas Lecoq has helped ODs build and sustain highly successful VT practices.

We're known for teaching that intangible element that makes those "great practice building ideas" work.

That's what makes Lecoq Practice Development stand out among the host of optometric consultants.

Now you can get the essence of the practical benefits of Thomas and Ameer Lecoq's training, materials and system.

In our potent, "More Patients Breakthrough Course," we'll teach you exactly how to convert an interested listener into a booked therapy patient.

	Early Bird Tuition	Standard Tuition	Total
Doctor	\$2125.00	\$2500.00

Lecoq Practice Development
Presents their acclaimed

More Patients Breakthrough Course

October 12-14, 2018

**Host: Charles Shidlofsky, O.D., FCOVD
Neuro-Vision Associates Of North Texas**

7140 Preston Road, Suite 300
Plano, TX 75024

Dallas, TX Area

Powerful communication is not a matter of forcefulness, selling or persuasion.

At the end of a powerful interaction, parents or adult patients simply *know* that the problem is vision, that you have the solution and they sign up.

Having more patients is the outcome of delivering powerful communication.

In this course you'll gain the ability to communicate in a way that generates booked exams, referrals or therapy enrollments.

A.D.D. Just Doesn't Add Up!

Flowering words or letters when reading or writing. These signs are often linked, distinct. (Color corrections may point to visual problems).

DYSLEXIA or REVERSALS

How to Identify Visual Limitations that Restrict Reading and Learning

VISION IS LEARNED-EXPERIENCED

Dear Mr. Bowles, Editor:
I would appreciate your publishing the following workshop announcement in your events listing:

You'll receive a library of forms, flyers, PR material, our remarkable "The Talk" scripts, demonstrations & handouts that lead your attendees to book their VT evaluation or enroll in therapy.

Add to that letters and guides to community outreach, plus certificates, thank you letters for attendees, and much more.

Not just copies, but Word files you can use as is, or modify to suit your special interests.

It would cost you thousands to have a PR professional produce these materials for you. All this is included with your course tuition!

Certificate of Participation

John Bowles

Has personally completed the 3-day course program in Vision and Attention Deficit Disorder Program as an expert in the field of Vision and Attention Deficit Disorder.

Course completed on: One of many available workshps.

Attendee: John Bowles is requested to be added to the larger number of mailing people. The attendee's name and address should be provided. All attendees are requested to provide a photo of themselves and a return address. All attendees are requested to provide a return address. This course is for attendees for secondary and tertiary care for Vision and Attention Deficit Disorder.

Dear Mr. Bowles:

I want to attend a personal appointment for one sitting by Bowles for a Vision and

Attendance is limited to 5 ODs (plus host). To assure your place, please register as early as possible.

If you'd like to discuss your practice take advantage of our free initial phone consultation. Call Thomas or Amee at 760-686-4648 to set a time.

Promises of the More Patients Breakthrough Course

In this 3-day course, you will learn to communicate the vision therapy message so that people you speak with schedule initial exams or enroll in therapy. You'll learn a way of speaking about (and promoting) vision therapy that touches the heart of parents, educators and others in a position to refer. All this without resorting to hard sell or manipulation.

- You'll learn to deliver our extraordinarily effective presentation, "The Talk," in your office, to community groups, professional organizations, educators and other referral sources.
- You'll learn exactly how to convert attendees into patients using our powerful RTEC method
- You'll receive our special scripts, and practice communicating effectively with any group
- You'll learn "Magic Sentences" that instantly engage everyone who hears you
- You'll develop the ability to consistently fill your audience with exactly the right people
- Learn effective demonstrations that leave audiences *knowing* that vision is the problem
- You'll get the tools and materials you'll need to make your community outreach pay off, plus written guides on how to carry out productive community outreach campaigns
- You'll have lots of time for questions and coaching specific to your practice
- You'll learn to generate patients from an existing primary care practice, and even how to raise your patient load in a VT-only setting

The Presenters: Thomas and Amee Lecoq have three decades experience in helping VT practitioners grow their patient load and referral networks. In this course, you'll receive the same instruction and coaching the Lecoqs provide during their full consultations, but with the benefit of having more time for personal practice. You'll leave able to apply what you've learned immediately.

Bring your staff: We encourage you to bring key staff to this course. If you have a Vision Therapy Administrator, s/he will learn to be effective at generating community outreach opportunities as well as how to apply our basic concepts to increasing VT enrollment. Your practice administrator will be motivated and better able to help you grow

Try us out: If you've thought about doing our consultation, this is the perfect way to find out how we work and whether we're a good match for what you need. Your full tuition applies to a future consultation, and since the course IS Step One of our full consultation, you'll be ahead of the game.

Visit www.idealvt.com to register. Please fill out an information form to tell us about any issues you'd like to have us cover during your course.
